

Your reliable integrated video surveillance solutions

How to set Watermark?

Answer:

Use watermark to encrypt custom information with video to prevent unauthorized delete or alteration.

Note: Only some certain models support this function. Please see the actual model for details.

1. Click **Setup > Security > Watermark**.

Watermark ☒ On ☐ Off

Watermark Content

Save

2. Select **On** to enable watermark, and then input watermark content.

3. Click **Save**.

Note: please download EZPlayer to verify the video's continues.
